

EID MESSAGE AND CONDOLENCE

Assalamu Alaikum and Eid Mubarak.

This year we are going to have Eid with a complete different background. Instead of a festive mood we are going through anxious moments as the corona infection rate goes on increasing. Together with anxiety many families have griefs due to loss of some dear and near ones.

We have lost from us one young man working dedicatedly at the Ahsania Mission Front Desk a couple of days back due to corona. All of us from the AUST family condole his death and ask the Almighty for the forgiveness of this young and hard working man who left two very young children and family members to mourn. The Chairman of BOT described him as a very helpful man with charming characters. Our sympathy goes to the Chairman and the colleagues of Mr. Sohel. May Allah give Sohel a place in the Jannatul Ferdaus as a Shaheed and all of us pray for the patience and strength for his family members.

At the same time let us all pray for those who left us in recent times due to this pandemic and their families to bear strength at this difficult moment.

Let us celebrate this extraordinary Eid with sincere prayers to The Most Beneficent and The Most Merciful to forgive our sins and we make Istigfar with a promise to lead a better, honest and a just life. On the holy night of Eid let us spare some time to ask forgiveness and help from The Most Forgiving for a normal anxious free life and workplace in the immediate near future. Ameen.

Prof. Dr. Md. Fazli Ilahi
Vice Chancellor, AUST
